By signing this release form, I,
acknowledge that Norwegian has duly informed me of the risks of air travel for my
dog and/or cat.

I understand that brachycephalic animals suffer from an increased risk of
mortality during transportation on board an aircraft due to respiratory distress,
injury or sickness as a consequence of their breathing difficulty.

Consequently, I, as owner of the animal or on his behalf, fully discharge
Norwegian, its agents, subcontractors and insurers if the animal suffers from this
condition during the carriage and/or leads to injury or mortality of the latter
during transportation and expressly renounce to any claim except if I demonstrate
that the injury or mortality has another origin for which Norwegian could be
liable.
